

Safety Data Sheet

Create date: 30.Jul. 2019

1. Identification of the substance or mixture and of the supplier

GHS product identifier : RED No. 227

Other means of identification : 2,7-Naphthalenedisulfonic acid,5-amino-4-hydroxy-3-(phenylazo) – ,disodium salt

Company name: KISHI KASEI CO., LTD.

Address: 1-10-8 Fukuura,Kanazawa-ku,Yokohama-shi, Kanagawa 236-0004, Japan.

Tel: +81-45-785-1160

FAX: +81-45-785-2150

e-mail: tombo@taketombo.co.jp

emergency call: +81-45-785-1160

Example of use of the chemical : Artificial color for Cosmetics

2. Hazard Identification

GHS Classification

Physical Hazards	Explosives	Not applicable
	Flammable gases	Not applicable
	Flammable aerosols	Not classified
	Oxidizing gases	Not applicable
	Gases under pressure	Not applicable
	Flammable liquids	Not applicable
	Flammable solids	Not classified
	Self-reactive substances and mixtures	Not applicable
	Pyrophoric liquids	Not applicable
	Pyrophoric solids	Not classified
	Self-heating substances and mixtures	Not classified
	Substances and mixtures which, in contact with water, emits flammamable gass	Not classified
	Oxidizing liquids	Not applicable
	Oxidizing solids	Classification not possible
	Organic peroxides	Not applicable
	Corrosive to metals	Classification not possible
Human Health Hazards	Acute toxicity (Oral)	Not applicable
	Acute toxicity (Dermal)	Classification not possible
	Acute toxicity (Inhalation: Gas)	Not applicable
	Acute toxicity (Inhalation: Vapor)	Not applicable
	Acute toxicity (Inhalation: Dust)	Classification not possible
	Acute toxicity (Inhalation: Mist)	Not applicable
	Skin corrosion/irritation	Classification not possible
	Serious eye damage/eye irritation	Classification not possible
	Respiratory sensitization	Classification not possible
	Skin sensitization	Classification not possible
	Germ cell mutagenicity	Classification not possible
	Carcinogenicity	Classification not possible
	Reproductive toxicity	Classification not possible
Environmental Hazards	Specific target organ toxicity – Single exposure	Classification not possible
	Specific target organ toxicity – Repeated exposure	Classification not possible
	Aspiration hazard	Classification not possible
	Acute toxicity to the aquatic environment	Classification not possible
	Chronic toxicity to the aquatic environment	Classification not possible

Label Elements

Pictogram and Symbol : No symbol

Signal word : No signal word

Hazard statement :

Precaution :

[Prevention]

Do not breathe dust/fume.

Wash hands thoroughly after handling.

Do not eat, drink or smoke when using this product.

Use only outdoors or in a well-ventilated area.

Wear protective gloves/protective clothing/eye protection/face protection.

[Response]

IF ON SKIN: Wash with plenty of soap and water.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present. Continue rinsing. Immediately call POISON CENTER or doctor/physician.

If skin irritation occurs: Get medical advice/attention.

Take off contaminated clothing and wash before reuse.

[Storage]

Store in a well-ventilated place. Keep container tightly closed.

Store locked up.

[Disposal]

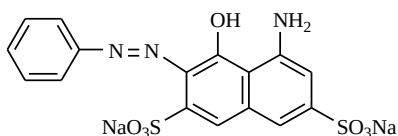

Dispose of contents/container in accordance with local/regional/national /international regulations

3. Composition/information on ingredients

Substance : Red No.227

Other name : Acid Red 33 , Fast Acid Magenta , C.I.17200 ,
Disodium salt of 8-amino-2-phenylazo-1-naphthol-3,6-disulfonic acid

Chemical Formula : $C_{16}H_{11}N_3Na_2O_7S_2$

CAS number : 3567-66-6

EINECS number : 222-656-9

Impurities and Stabilizing additives which are Themselves classified : No data available

Concentration : > 85 %

4. First aid measures

IF ON SKIN : Wash with plenty of soap and water.

IF INHALED : Remove victim to fresh air and keep at rest to be comfortable for breathing. And immediately a POISON CENTER or doctor/physician.

IF IN EYES : Rinse cautiously with warm water for several minutes. Call a doctor/oculist, if necessary.

Most important symptoms/No information reported

Causes skin irritation (Skin corrosion/irritation /Classification not possible)

Causes serious eye damage (Serious eye damage/eye irritation /Classification not possible)

May cause respiratory irritation (Specific target organ toxicity – Single exposure /Classification not possible)

May cause respiratory irritation (Specific target organ toxicity – Repeated exposure /Classification not possible)

Advice to Doctor/No information reported

5. Firefighting measures

Extinguishing medicine : water, powder

Fire Fighting Media and Instructions : wear the protective equipment and using the extinguishing medicine from the windward

Unsuitable Extinguishing medicine : No information reported

Specific hazards arising from Chemical : No information reported

Peculiar/Special extinguishing method : No information reported

Protection of the person who extinguishes fire : Should wear an appropriate air-breathing machine and protective clothing in the fire fighting.

6. Accidental release measures

Personal protection : Wear the rubber glove and the antidust mask .

Environmental precautions : Do not flow out to the environment. Do not outflow to the drain or ditch, the drainage ditch, the basement floor or the closed place.

Collection and neutralization : Sweep spilled substance into covered containers. Amount remaining should be with the moist cloth.

Prevention /countermeasure of secondary disaster: No information is available.

Accidental release Measures : It should be absorbed by the cleaner. And the anything remaining should be wiped off with the moist cloth. The floor should be in water, and the waste water should be processed.

7. Handling and storage

Technical measures : Wear the rubber glove and the antidust mask

Precautions for safe handling

Do not breathe dust/fume.

Wash hands thoroughly after handling.

Do not eat, drink or smoke when using this product.

Use only outdoors or in a well-ventilated area.

Wear protective gloves/protective clothing/eye protection/face protection.

Take off contaminated clothing and wash before reuse.

Conditions for safe storage, including any incompatibilities.

Store in a well-ventilated place. Keep container tightly closed.

Store locked up.

8. Exposure controls/personal protection

Control parameters : Not applicable

Permissible concentration (exposure limit values and biological exposure limit values) : Not applicable

Equipment measures :The installation of the limited part exhaust equipment is preferable.

Protective equipment : Wear the rubber glove and the antidust mask.

Hygiene measures : Wash hands thoroughly after handling.

9. Physical and chemical properties

Appearance (physical state, color, etc) : Brown Grain or Powder

Odor : None reported.

pH : No data

Melting point/Freezing point : No data

boiling point, Initial boiling point and boiling range : No data

Flash point : not combustible

Evaporation rate : not applicable

Vapor pressure : not applicable

Vapor density : not applicable

Relative density(bulk density) : 0.3

Solubility(ies) : soluble in water and glicerine

Partition coefficient: n-octanol/water : not applicable

Autoignition temperature : not combustible

Decomposition temperature : No data

Upper/lower flammability or explosive limits : not combustible

Flammability (solid, gas) : non combustible

viscosity:No data

10. Stability and reactivity

Chemical stability : Under a usual use condition, it is stable.

Possibility of hazardous reactions : No information reported

Conditions to avoid (eg, static discharge, shock or vibration) : No information reported

Incompatible materials : No information reported

Hazardous decomposition products : No information reported

11. Toxicological information

Acute toxicity : Acute toxicity (oral) is "Not applicable"
because oral use is not permitted under Japan law. (Inhalation : Dusts / Mist : No data)

Skin corrosion / irritation : No data available

Serious eye damage / eye irritation : No data available

Respiratory sensitization / Skin sensitization : No data available

Carcinogenicity : No data available

Germ cell mutagenicity : No data available

Specific target organ toxicity – Single exposure : No data available

Specific target organ toxicity – Repeated exposure : No data available

Aspiration hazard : No data available

12. Ecological information

Acute toxicity to the aquatic environment	Date available is insufficient
---	--------------------------------

Chronic toxicity to the aquatic environment	Date available is insufficient
---	--------------------------------

Decomposition : No data

Ichthyotoxicity : No data

Accumulation : No data

Partition coefficient : No data

13. Disposal considerations

Description of waste residues and information on their safe handling and methods of disposal.

If you would like to dispose this chemical off, you should properly dispose it off by yourself or ask qualified specific agents to dispose off according to related legislations and local regulations. If you would like to ask the agents to dispose of this chemical off, you should provide sufficient information on dangerousness and hazard of this chemical.

The disposal of any contaminated packaging

Container should be recycled after cleaning or if you would like to dispose off container of this chemical, you should properly dispose it off this by yourself or ask qualified specific agents to have it disposed off according to related legislations and local regulations. When asking the agents, should provide sufficient information on dangerousness and hazard of this chemical in this container and also for container.

Attention in abandonment

It should be burnt in incinerator equipped with scrubber. Drain should be exhausted after discoloration, oxidation and bleaching.

14. Transport information

It should be loaded with enough care to avoid it getting tumbled, falling, or giving damage to the substance.

Air: Non-Hazardous

Ocean: Non-Hazardous

Road: Non-Hazardous

15. Regulatory information

Pharmaceutical Affairs Act (JAPAN)

None of the following laws is Applicable: Poisonous and Deleterious Substances Control Law, Law of Safety of Vessels, Law for Safety & Health for Laborers, and Laws for Fire Fighting. (JAPAN)

16. Other information

(Reference)

GHS Model Label of this substance (English/Japanese)

GHS Classification Manual in Japan (English/Japanese)

Japan Advanced Information center of Safety and Health – Chemical information (Only Japanese)

Technical Guidance on GHS classification in Japan (English/Japanese)

The information contained was given as a reference of safe handling of this product but not to guarantee.

The information contained was made at the best of our knowledge, but the evaluation for danger or toxicity may not be enough, which should be noted. We assume no liability on the result coming from its use. It is also to be noted that the information given might be revised based on the new finding or knowledge obtained.
